IDEAL POINTE SHOES

It has always been our intention to create the best pointe shoes, and our design has evolved continually. In RC-collection we have attained perfection thanks to a unique technique of Pointe production.

LIFE. BALLET. POINTES

The path to the top of ballet begins in early childhood. From the very beginning of the artistic journey, it's important to choose Pointe shoes that help support the foot correctly. R-Class pointe shoes are made only of natural materials. Especially for young ballerinas, we have created CRC collection.

TOGETHER FOREVER

Alexandra Timofeeva

Prima ballerina of the Kremlin Ballet, Moscow

I have been dancing in R-Class pointe shoes for the duration of my professional life.

Wearing them, I danced all leading roles in the major classic ballets.

R-Class pointes are perfect for my work.

In these shoes I can fulfill all my artistic roles on my home stage and during numerous guest performances.

SUCCESS STORY

R-Class pointe shoes give me an infinite ability to execute all my artistic dreams.

Good pointes shoes are like real friends.

I feel good, secure and comfortable in them.

They always come to rescue in the most difficult moments at the right time.

I can rely on them and be sure that they won't fail me.
